SANGIOVESE ROSÉ

LIMITED
RELEASE

World-class WASHINGTON

Though still a relatively young region, the State of Washington was destined to be world-class wine country. It sits at the 46th parallel north – a sweet spot for growing grapes, where the long days of sunshine couple with cool nights to preserve aromas, freshness and acidity. Sangiovese is finding a strong home here, particularly as a rosé. The growing conditions foster the grape's fruit-forward flavours and prized acidity, making it a star choice for a perfectly satisfying rosé.
